

BarnBuilt Bolt Cutters

SKU: BB-BCH

- A. Bolt Cutters
- B. Nylon Strap
- C. Black Rope
- D. Quick Link

Step 1:

To create a Safety Line, secure the **Black Rope** to an overhead system in the direction of travel. To ensure maximum safety, we advise setting the Safety Line at a height where the **Bolt Cutters** will hang at a minimum of 7ft from the ground.

Step 2:

Take one end of the **Nylon Strap** and thread it through the ring on the **Bolt Cutters**.

Step 3:

Take the other end of the **Nylon Strap** and thread it through the **Quick Link**.

Step 4:

Hang the **Quick Link** on the Safety Line.
