

BarnBuilt Mallet

SKU: MCMB-MAL

Recommended Tools:

- 9/16" Wrench or Socket
- Hammer

Step 1:

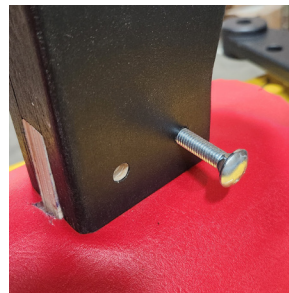

Place the Mallet Arm into the slot of the Mallet Base with the holes aligned.

Step 2:

Insert two Bolts into the holes, making sure the head is flush with the Mallet Arm. If needed, use a hammer to fully drive the bolts through.

Step 3:

Secure the Bolts by using a Washer, Locknut, and Nut, ensuring they sit inside the designated cutout area of the Mallet Arm.

Part Number	Part Description	Quantity
CUSTOM	Mallet Arm	1
