

Embedded Polymer Bearings

Recommended Tools:

- 5/16" Hex Key

Step 1:

Slide one Locking Collar onto a cross pipe, followed by your ninja obstacle and then second Locking Collar.

Step 2:

Slide your ninja obstacle into desired position on the cross pipe and then tighten the set screws until secure.

Pillow Block Bearings

Recommended Tools:

- 5/32" (4.0 mm) Hex Key for 1.25" (1.66" OD) Pipe
- 3/16" (4.8 mm) Hex Key for 1.5" (1.90" OD) Pipe

Step 1:

Slide your ninja obstacle onto a cross pipe. Rotate each bearing so that the set screws are positioned on top. This will ensure the obstacle is balanced correctly on the pipe.

Step 2:

Using the correct size Hex Key, tighten the set screws until they are firmly secured.
