Vertical Limit

Parts Included:

- 1 - Vertical Limit (Wood)
- 2 - Steel Uprights
- 4 - 3" Carriage bolts
- 4 - Nuts/Washers
- 2 - Safety Clips

*** Crossover Fittings shown in diagrams for demonstrational purposes and must be purchased separately. Vertical Limit may be hung using a variety of different clamps to your specific cross pipes***

Instructions:

Step 1:

Secure steel uprights onto Vertical Limit using pre-drilled holes, with supplied washers and nuts. The Steel should be on the same face as the lip on the vertical limit. Repeat for second steel upright.

Mounting Recommendations:

DGS recommends mounting steel uprights to 2 locations on each upright to prevent movement in use. See example shown on this page. Always use provided safety clips in pre-drilled holes at the top of the steel uprights.

WARNING: These items are not toys. Activities involving motion and height create inherent risk of serious injury including paralysis or death. These products are intended for use by properly trained participants under qualified supervision, and the user of this product therefore assumes this risk. Always know your physical limitations and limits of your equipment. Avoid landing on head or neck as serious injuries may result. Always check for proper mat positioning, equipment stability, and inspect hardware for wear and damage before and after each use. Do not use if signs of damage or excessive wear are present. DGS shall not be liable for personal injury or property damage incurred through the use of purchased items.
